

ADARSH B

Python Full-Stack Developer

adarshb1999.tech@gmail.com | +91 70253 21186 | Palakkad, Kerala | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE SUMMARY

Python Full-Stack Developer with hands-on experience in Django, Django REST Framework, and React.js. Built and deployed production-ready applications including a lead management system, an e-commerce platform, and containerized microservices. Completed an MCA (Dec 2023) followed by an 8-month full-stack internship delivering real-time WebSocket features and Docker-based deployments. Focused on writing clean, scalable code and open to relocation for full-time developer roles.

SKILLS

- **Languages:** Python, JavaScript, SQL, Bash, HTML
- **Frameworks:** Django, Django REST Framework, React.js, Node.js, Tailwind CSS, Bootstrap
- **Databases:** PostgreSQL, MySQL, SQLite
- **Tools & DevOps:** Git, Docker, Postman, REST APIs, JWT Authentication, WebSockets, AWS, Linux
- **Practices:** Agile/Scrum, Code Review, API Design, Prompt Engineering (LLMs)

EXPERIENCE

Python Full-Stack Intern

Dec 2024 – Aug 2025

Luminar Technolab

Remote

- Refactored a legacy Django + React.js forum, improving code maintainability and reducing technical debt across the codebase.
- Designed and built RESTful APIs using Django REST Framework (DRF) to support a fully decoupled frontend architecture.
- Implemented WebSocket-based real-time updates using Django Channels and containerized the full application with Docker.

Software Development Intern

Aug 2023 – Sep 2023

Caadmax Edtech Pvt Ltd

On-site

- Developed web application features using Java and React.js with a focus on performance and cross-browser usability.
- Participated in Agile sprints — planning, stand-ups, and code reviews — ensuring on-time feature delivery.
- Fixed critical bugs and implemented new features that improved overall application stability and user experience.

PROJECTS

AI-First CRM – HCP Module

July 2026

React.js, FastAPI, LangGraph, PostgreSQL

- Built a conversational AI CRM enabling field reps to log healthcare interactions using natural language input.
- Orchestrated a LangGraph state machine with 5 AI tools for entity extraction, validation, search, and summarization.

URL Shortener – Containerized Microservice

Aug 2025

Django, Docker, PostgreSQL, SQLite

- Built a URL shortening microservice with unique code generation and HTTP redirection using Django ORM.
- Containerized the application with Docker for consistent, portable deployment across environments.

LEADapi – Lead Management System

June 2025

DRF, React.js, JWT, SQLite

- Built a full-stack lead management system with complete CRUD operations, JWT-secured endpoints, and a React.js frontend.
- Designed a RESTful API architecture with DRF enabling seamless data flow between backend and decoupled frontend.

CartNest – E-commerce Web Application

May 2025

Django, Python, Tailwind CSS, HTML

- Developed a full-featured e-commerce platform including product catalog, search, cart management, and checkout flow.
- Implemented user authentication and a responsive Tailwind CSS UI, improving usability across device sizes.

EDUCATION

Master of Computer Applications (MCA)

Dec 2021 – Dec 2023

Bangalore University — Bangalore, Karnataka | CGPA: 6.87

Bachelor of Computer Applications (BCA)

July 2018 – June 2021

Bharathiyar University — Coimbatore, Tamil Nadu | CGPA: 7.20

CERTIFICATIONS

- ICS-INDIA (ISO 9001:2015): Technical Solutions (A+), Office Management (A), Web/Graphic Design (A) — 2020
